# 01. INTRODUCTION

## 01. INTRO

The rise of crypto currencies has witnessed a remarkable transformation in the financial ecosystem, captivating both retail and institutional investors alike. However, the early adoption of prominent tokens and their subsequent price surges have left many new entrants feeling like they have missed the boat.

This has ignited a movement within the crypto developer community aimed at offering second chances for those who missed out in years gone by to level the playing field for new participants in the crypto economy.

The creators behind **BTCG** have recognized the need to address this. **BTCG** stands as the second coming of **BTC**, building upon the foundations of its predecessor while ushering in a new era of accessibility, inclusivity, utility, and simplicity.

## The Need for Second Chances

The initial emergence of crypto currencies was characterized by ground-breaking innovations, but it was often restricted to tech-savvy early adopters who seized the opportunity and reaped the rewards.

As the crypto market matured, a knowledge gap emerged, creating barriers for potential participants seeking a less complicated way to engage with digital assets.

BTCG a brainchild of community-driven ideals, aims to bridge this gap and extend a helping hand to those seeking a second chance at exploring the vast potential of crypto currencies.

By drawing inspiration from the pioneering BTC project, BTCG aims to democratize access to a token that has traditionally served institutional players, encouraging a more diverse and robust community - also known as the BTC Army.

## **Easier, Seamless, and More Secure**

Building upon the rich heritage of BTC, BTCG has been meticulously crafted with enhanced usability and user friendliness in mind. Our team of dedicated experts, comprising block chain enthusiasts and specialist developers, has left no stone unturned in streamlining the user experience.

BTCG boasts a seamless on boarding process, making it easier for both novices and experienced crypto veterans to purchase, trade, and securely HODL or stake their tokens. Built on Ethereum, our commitment to security and simplicity is clear. Utilizing the state-of-the-art encryption measures of the most-used block chain, we've decentralized the experience of owning BTCG to help safeguard our community's assets.

## **Embracing Community Driven Development**

At the heart of BTCG lies a thriving community that actively supports the original company's vision and efforts to fight the SEC as BTC continues its lengthy legal battle.

We firmly believe in the power of decentralization and that creating a new token for the BTC Army will strengthen the ecosystem and embolden the community's resolve in the wake of its current challenges.

## 02. ROADMAP

## 02. ROADMAP

### **Presale and Token Distribution**

Our first focus is to raise awareness about BTCG and our mission to offer a second chance to new entrants in the evolving crypto market. Our goal is to attract early supporters and contributors through a fair and transparent presale event. The presale will be an opportunity to establish a strong and engaged community around BTCG.

### **Pre-Launch Marketing and Awareness**

During the presale phase we will initiate a marketing strategy that highlights the accessibility and ease of acquiring BTCG, emphasizing its value proposition as a second chance to own the token early and stake it long term to earn passive income.

## Post-Launch Community Staking

BTCG introduces on-chain staking for the BTCG Army where anybody can stake their tokens to earn passive income. Our goal is to create a thriving community that actively engages with BTCG, driving its growth. Staking becomes a focus area in this phase as we aim to foster vested interest and reward the community for locking up supply and providing long-term stability to the staking ecosystem.

## 03. TOKENOMICS

## 03. TOKENOMICS

### Presale and Token Distribution

We're implementing similar tokenomics to the original BTC but giving everybody the chance to purchase BTCG at a super-low price and stake their tokens to earn passive income.

Total Supply: 21,000,000 Tokens At the heart of the BTCG ecosystem lies a carefully crafted tokenomics model that aims to create value, foster community engagement, and ensure a sustainable growth trajectory. With a fixed total supply of 21,000,000 tokens, we've set the foundation for a transparent and inclusive digital asset.

Contract Address	Token Name
0x6a70fFbFe6b9120e8900Be26E482a9cdC14F21B7	BITCOIN GLOBAL
Token Symbol	Network
BTCG	Binance Smart Chain (BEP20)
Total Supply 21,000,000	

## Token Allocation

### **Public Presale: 50% (10,500,000 Tokens)**

The public presale phase plays a pivotal role in the project's initial development and expansion. During this phase, 10,500,000 tokens will be available for early contributors who share our vision for the future of BTCG. This distribution ensures a strong and committed network of stakeholders supporting the project's mission.

### **Staking: 20% (4,200,000 Tokens)**

We believe that active community participation is essential for the long-term success of the BTCG ecosystem. To encourage engagement, 4,200,000 tokens will be dedicated to staking rewards. By staking their tokens, community members can contribute to token price stability while earning rewards for their involvement.

## Token Allocation

### **DEX Liquidity: 30% (6,300,000 Tokens)**

A robust liquidity pool is vital for a smooth and efficient trading experience. To ensure a healthy trading environment for our community, 6,300,000 tokens will be allocated to the first DEX liquidity pool.

These reserves will provide stable trading conditions and make it easier for participants to buy and sell BTCG tokens.
